**CHAPTER TWO**  
**LAND USE DISTRICTS**

**2100. LAND USE MAPS**

- A. Establishment of land use atlas maps – The locations and boundaries of the land use districts established within the county shall be shown on a map, comprising of one or more paper sheets, or comprised of electronic data, entitled “Land Use Atlas Map of Citrus County, Florida,” adopted (effective date of new LDC), and which is incorporated herein.
- B. Unauthorized changes prohibited - No changes of any nature shall be made on the Land Use Atlas Map or any matter shown thereon except in conformity with the procedures set out in this Code and in applicable state law. Any unauthorized change of whatever kind by any person or persons shall be considered a violation of this code.
- C. Interpretation of Land Use district boundaries - The location of any land use district boundaries shown on the Land Use Atlas Map shall be determined using the following rules:
1. Land use district boundary lines are intended to follow property lot lines unless said land use district lines are fixed by dimensions as shown on the Land Use Atlas Map.
  2. Where land use district boundaries approximately follow platted lot lines on the Land Use Atlas Map, said lot lines shall be construed to be said boundaries.
  3. Where land use district boundaries approximately follow county limits, said limits shall be construed to be said boundaries.
  4. Where land use district boundaries approximately follow section lines or subsection lines, said lines shall be construed to be said boundaries.
  5. Where the foregoing rules cannot be applied to a land use district boundary traversing unsubdivided property, or where a land use district boundary divides a lot, the location of any said boundary shall be determined as delineated on the Land Use Atlas Map.
  6. If, after the application of the foregoing rules, uncertainty exists as to the exact location of the land use district boundary, the Land Development Director shall interpret and determine said location in accordance with the intent and purpose of this code. Appeal from the interpretation of the Land Development Director shall be prescribed herein.

- D. Modification of land use district designations on a parcel(s) or portion of a parcel(s) may be considered via public hearings as delineated in Florida Statutes and as provided for on forms supplied by the Citrus County Land Development Division.

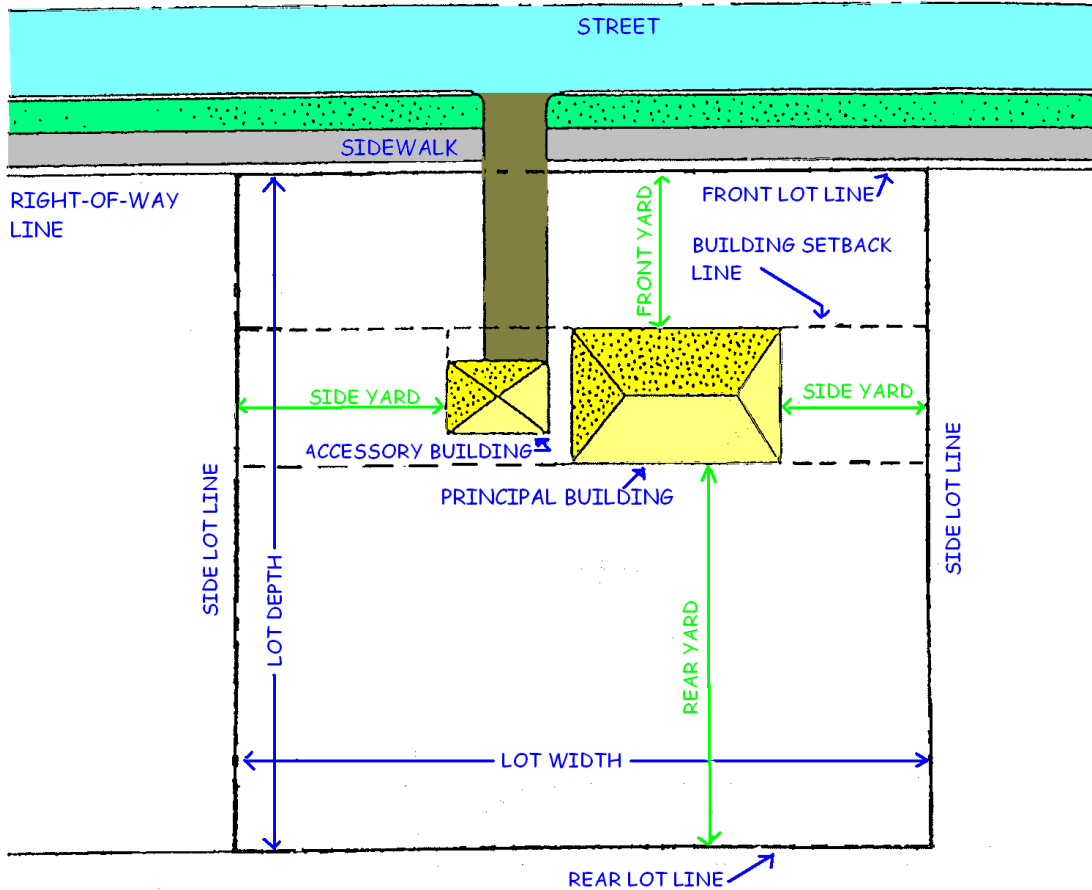

**2200. MINIMUM LOT REQUIREMENT FOR ALL USES**

- A. All proposed developments shall have a total land area sufficient to meet all site design standards in this LDC including, but not limited to: land required to provide setbacks from abutting rights-of-way, buffers, stormwater management, off-street parking and circulation, protection of wetlands, or other provisions that may require land area to be set aside.
- B. There is no minimum lot area for individual lots within a residential development served by both a central water and central sewer system provided that all of the following requirements shall be met:
1. The land area for the total project is sufficient to meet standards as stated herein.
  2. Gross density of the area shall not exceed the provisions of this LDC.
  3. Land exclusive of individual lots to be conveyed in fee simple ownership shall be controlled and maintained through a condominium association, property owners' association, dedicated to a public agency, or other similar provision. Recordable instruments providing for these common-ownership lands shall be submitted for review with the application for a development order.
  4. All new residential subdivisions and nonresidential developments in areas not served by central water and central sewer shall have the following minimum lot areas:

<b>Type of Development</b>	<b>Sewer/Water System</b>	<b>Lot Area</b>
Residential	OSTDS* Individual wells	0.5 acre per unit
Nonresidential	OSTDS* Individual wells	0.5 acre per unit
Residential	OSTDS* Central water	0.5 acre per unit
Nonresidential	OSTDS* Central water	0.5 acre per unit

\*OSTDS - onsite sewage treatment disposal system, aka septic tanks

C. There is no minimum lot width for new individual lots within the planned service area served by both a central water and central sewer system except as provided elsewhere within this LDC. However, those properties located outside the planned service area or not served by central water and central sewer shall maintain a minimum 100 feet for residential and 150 feet for nonresidential new lots.

D. Except as permitted by other provisions of this LDC or approved as a Planned Residential Development or a Planned Unit Development, lot width shall be at least 40 feet on a street.

E. Additional lot area requirements shall apply to those limited agricultural uses, as specified in the following table:

Land Use	Minimum Lot Size
Confinement Feeding Lot	10.0 acres
Livestock Auction	10.0 acres
Slaughter House	20.0 acres

**2300. BUILDING SETBACK REQUIREMENTS AND HEIGHT REQUIREMENTS FOR ALL LAND USE DISTRICTS**

A. A minimum setback from an abutting right-of-way shall be required for all buildings. The required minimum setback shall be measured from the centerline of the right-of-way. The distance is determined by the functional classification of the roadway, as specified on the Functional Classification Map in this LDC. Minimum distance is shown in the following table:

<b>BUILDING SETBACK REQUIREMENTS</b>	
Local Street (public or private)	50 feet
Minor Collector	65 feet
Major Collector	75 feet
Minor Arterial	100 feet
Principal Arterial	125 feet

1. Principal uses should be located 25 feet from any existing right-of-way line, except as provided elsewhere within this LDC. In cases where private and local streets are 60 feet in width where residential uses may be permitted, the setback may be administratively approved no less than 20 feet from an existing right-of-way line.
2. Metal or wood carports, awnings, or other open accessory structures may be permitted administratively with up to 20 percent reduction of the required building setback from the centerline of the right-of-way.

There are no minimum setbacks required for side and rear yards (those sides of a building which do not abut a right-of-way) that do not abut surface water, wetlands, or springs provided that the distance from the structure to the property line is less than five feet, the applicant must show evidence of a maintenance easement granted by adjacent property owner (s),

**NOTE:** Standards for specified individual uses as provided in this LDC may include requirements for setbacks.

- B. When a building exceeds 50 feet in height, the minimum distance from an adjacent building or property line shall be increased by two feet for each 10 feet above 50 feet.
- C. Architectural features, eaves, balconies, and the like may project required front yards not more than three feet.
- D. Special setbacks are established for structures adjacent to existing sinkholes and caves as provided in this LDC.

- E. All structures shall be a minimum of 35 feet from either the more landward of the mean high-waterline or ordinary high-water or jurisdiction wetland line, except as follows.
1. Proposed structures for lots with seawalls or rip rap and lacking a natural vegetative buffer that are on natural grade, such as slabs or decks (without railing or similar construction), shall be set back a minimum of 15 feet from the ordinary high water, mean high water line, or jurisdiction wetland line. For purposes of this section "natural grade" shall include those deck structures no more than 12" above grade with 1/2-inch spacing.
  2. Structures may utilize the greater of (1) an average setback of the six closest similar uses on either side of the proposed site, and (2) the furthest setback for immediately abutting improved properties on either side of the proposed site. Any structures used for this calculation must be permitted, and the minimum setback allowable via this process cannot be less than 15 feet from the ordinary high water, mean high water line or jurisdiction wetland line.
  3. Structures in the vicinity of springs, spring runs, and sinkholes open to the aquifer shall be setback a minimum of 100 feet from the ordinary high waterline or mean high water line. When a lot of record cannot accommodate a 100 foot setback development shall follow an engineer designed system that directs stormwater runoff away from springs, spring runs and sinkholes open to the aquifer and locates structures the maximum distance possible from the spring, spring run and sinkhole open to the aquifer.

## **2400. LAND USE DISTRICTS**

### **2401. LOW INTENSITY COASTAL AND LAKES DISTRICT (CL)**

This category designates those areas having environmental characteristics sensitive to development and therefore should be protected. No land use amendment that would increase residential density should be approved except for the Planned Unit Development standards where allowed. No additional high intensity non-residential land uses, specifically new GNC and IND, shall be allowed in the Coastal, Lakes, and River region. Where preservation is not possible, only the lowest intensity development shall be allowed.

- A. Velocity Zones: The predominant land uses shall be single family residential development at a maximum density of one dwelling unit per 40 acres. No PUD provisions will be allowed within the V-zone.
- B. Coastal, Lakes, and River Area (CLRA, all CL District lands excluding V-zones): The predominant land uses shall be single family residential development a maximum density of one dwelling unit per 20 acres. Planned Unit Developments are allowed provided the following provisions are met:
1. A minimum of 160 acres is required for a development plan.
  2. Gross density shall not exceed one dwelling unit per five acres.
  3. The development shall be serviced by regional water and sewer facilities.
  4. One hundred percent of wetlands on site shall be protected. Mitigation shall not be allowed.
  5. Clustering of units shall be required to assure preservation of a minimum of 80 percent of the existing uplands on site.

6. A 1,000-foot buffer shall be provided around all lands designated as part of the St. Martin's Marsh Aquatic Preserve.

7. All development shall be encouraged to utilize best management practices for a stormwater management, erosion control, and wildlife preservation by a Wildlife Educational Program.
- C. A Planned Unit Development within the upland areas of the Lakes and River Region may be permitted at a density not to exceed 0.1 dwelling units per acre (one dwelling unit per 10 acres) subject to the following special conditions:
1. A minimum of 20 upland acres is required.
  2. Documentation of sufficient upland soils on-site shall be provided by the applicant based on data from the Natural Resources Conservation Service (NRCS), water management district or other appropriate agency.
  3. Clustering of units to preserve 80 percent of the gross site area as permanent open space is required; and
  4. All projects proposed under this option shall provide a biological survey.
- D. In addition to single family residential development, the following is a list of land uses with notations as to whether they are permitted.

<u>CL District</u>		<u>Key – Level of Review</u>	
		P = Permitted	
		C = Conditional Use	
USES			
Residential			
Single Family	P	Home Occupation	P
Model Homes (no sales office)	P	Accessory Structure	P
Group Home <sup>1</sup>	C	Bed & Breakfast	C
Institutional			
Educational Facilities (excluding public schools)	C	Nursing Homes <sup>1</sup>	C
Day Care Centers	C	Halfway Houses <sup>1</sup>	C
Houses of Worship	C	Cemeteries (without funeral home/crematory)	C
Assisted Living Facilities <sup>1</sup>	C		
Recreational			
Passive Recreation	P	Hunting/Fishing Preserves	P

Playgrounds	P	Preserves/Reserves	P
Swimming Pools/Bathing Areas	C	Summer Camps/Retreats	C
Fishing Docks/Piers	C		
Agricultural			
Croplands/Pastures	P	Confinement Feeding/Feedlots	C
Silviculture	P	Plant Nurseries – wholesale	P
Aquaculture	P	Sod Farm	P
Viticulture	P		
Public Service/Utility			
Emergency Service Facilities	P	Utility Facilities (Water & Wastewater) <sup>2</sup>	P
Communications/Transmission Towers (limitations apply)	C	Wellfields (Greater than 100,000 gpd) <sup>2</sup>	C*
Government Facility	P	Wellfields (Less than or equal to 100,000 gpd) <sup>2</sup>	P

<sup>1</sup> Use limited within Coastal High Hazard Area to those sites with direct access to a principal arterial roadway. See LDC Atlas for CHHA delineation.

<sup>2</sup> Regional facilities not allowed within the Coastal High Hazard Area. See LDC Atlas for CHHA delineation.

\*Wellfields greater than 100,000 gpd are subject to approval by the BCC.

**Area Requirements:**

Maximum Lot Coverage – 35%, except for lots of record that are less than one acre shall not exceed 40%

Floor Area Ratio (non-residential uses only) – 0.2

## **2402. RURAL RESIDENTIAL DISTRICT (RUR)**

This category represents primarily those areas that are transitional between higher density developments and agricultural or conservation uses. This district is intended to preserve economically viable agricultural land and large tracts of residential land in order to maintain a rural atmosphere in appropriate areas of the County.

This category allows for residential use at a maximum density of 1.0 unit per 10 acres. Single family residential may be permitted at a density not to exceed one unit per five (5) acres when having at least fifty percent (50%) open space, provided additional standards are met, including a PUD as outlined in Chapter Four.

In addition to residential development, the following is a list of land uses with notations as to whether they are permitted.

<b><u>RUR District</u></b>		<b><u>Key – Level of Review</u></b>	
		P = Permitted C = Conditional Use	
<b>Uses</b>			
<b>Residential</b>			
Single Family	P	Bed & Breakfast	C
Attached Housing	C	Home Occupation	P
Model Homes (no sales office)	P	Accessory Structure	P
Group Home <sup>1</sup>	C		
<b>Institutional</b>			
Educational Facilities (excluding public schools)	C	Nursing Homes <sup>1</sup>	C
Day Care Centers	C	Halfway Houses <sup>1</sup>	C

<b>Uses</b>			

<b>Public Service/Utility (cont'd)</b>			
Communications/Transmission Towers (limitations apply)	C	Wellfields (Greater than 100,000 gpd) <sup>2</sup>	C*
Railroad rights of way (storage facilities, or related structures)	C	Wellfields (Less than or equal to 100,000 gpd) <sup>2</sup>	P
Government Facility	C		

<sup>1</sup> Use limited within Coastal High Hazard Area to those sites with direct access to a principal arterial roadway. See LDC Atlas for CHHA delineation.  
<sup>2</sup> Regional facilities not allowed within the Coastal High Hazard Area. See LDC Atlas for CHHA delineation.  
\*Wellfields greater than 100,000 gpd are subject to approval by the BCC.

**Area Requirements:**

Maximum Lot Coverage – 20%, except for lots of record that are less than one acre shall not exceed 30%  
Floor Area Ratio (non-residential uses only) – 0.2

**2403. COASTAL AND LAKES RESIDENTIAL DISTRICT (CLR)**

This category recognizes lawful unrecorded and recorded subdivisions within the coastal, lakes, and river regions of the County. Density shall be limited to the maximum provided by the final development order approved for the underlying subdivision plat. Replatting to accomplish clustering and/or development consistent with current standards will be permitted provided gross density is not increased.

<b><u>CLR District</u></b>	<b><u>Key – Level of Review</u></b>		
	P = Permitted C = Conditional Use		
<b>Uses</b>			

<b>Residential</b>			
Single Family	P	Group Home <sup>1</sup>	C
Attached Housing (Density limited to underlying subdivision plat.)	P	Home Occupation	P

Communications/Transmission Towers (limitations apply)	C	Wellfields (Greater than 100,000 gpd) <sup>2</sup>	C*
Government Facility	C	Wellfields (Less than or equal to 100,000 gpd) <sup>2</sup>	P

<sup>1x</sup>Use limited within the Coastal High Hazard Area as a PUD. See LDC Atlas for CHHA delineation.

<sup>1</sup> Use limited within Coastal High Hazard Area to those sites with direct access to a principal arterial roadway. See LDC Atlas for CHHA delineation.

<sup>2</sup> Regional facilities not allowed within the Coastal High Hazard Area. See LDC Atlas for CHHA delineation

\*Wellfields greater than 100,000 gpd are subject to approval by the BCC.

Area Requirements:

Maximum Lot Coverage – 40%, except for lots of record that are less than 10,000 square feet in these areas shall not exceed 50%. For lots greater than 10,000 square feet but less than one (1) acre in size, an extra 10% of ISR may be added provided same is a non-vertical improvement (i.e., walkways, decks, driveways, pool decks, and like or similar improvements).

Floor Area Ratio (non-residential uses only) – 0.2

**2404. CENTRAL RIDGE RESIDENTIAL DISTRICT (CRR)**

This category is designed to protect the rural character of existing large lot subdivisions by prohibiting any increase in residential density beyond the approved final plat or accepted unrecorded subdivision plan.

This district consists of lawful unrecorded and recorded subdivisions located within the Planned Service Area (PSA). Density shall be limited to the maximum provided by the final development order under the approved subdivision plat and any subsequent lot divisions up to the effective date of the established CRR District on the GFLUM. Lot reconfiguration is permitted. Replatting to accomplish clustering and/or development consistent with the current standards is permitted provided the gross density is not increased.

This category, permitted only within the PSA, allows for single family residential development at a density no greater than the density of the existing subdivision. This category may be assigned to only a portion of a subdivision and shall not apply to undivided land.

<u>CRR District</u>	<u>Key – Level of Review</u>

<sup>1</sup> Use limited within Coastal High Hazard Area to those areas with direct access to a principal arterial roadway. See LDC Atlas for CHHA delineation.

<sup>2</sup> Regional facilities not allowed within the Coastal High Hazard Area. See LDC Atlas for CHHA delineation.

\*Wellfields greater than 100,000 gpd are subject to approval by the BCC.

Area Requirements:

Maximum Lot Coverage – 35%

Floor Area Ratio (non-residential uses only) – 0.2

**2405. LOW DENSITY RESIDENTIAL DISTRICT (LDR)**

This category allows for residential development at a maximum of up to 2.0 dwelling units per acre. Higher density developments, 2.1 to 6.0 units per acre, may be allowed provided additional standards are met, including a PUD as outlined in Chapter Four.

<u>LDR District</u>	<u>Key – Level of Review</u>

<sup>1</sup> Use limited within Coastal High Hazard Area to sites with direct access to a principal arterial roadway. See LDC Atlas for CHHA delineation.

<sup>2</sup> Regional facilities not allowed within the Coastal High Hazard Area. See LDC Atlas for CHHA delineation.

\*Wellfields greater than 100,000 gpd are subject to approval by the BCC.

Area Requirements:

Maximum Lot Coverage – 35%

Floor Area Ratio (non-residential uses only) – 0.2

**2406. MEDIUM DENSITY RESIDENTIAL DISTRICT (MDR)**

This category is representative of an urbanizing area. The category allows for single family residential development at a maximum density of 4.0 units per acre. Higher density developments, 4.1 to 8.0 units per acre, may be permitted, provided additional standards are met including a PUD as outlined in Chapter Four of this LDC.

<b>MDR District</b>		<b><u>Key – Level of Review</u></b>

\*Wellfields greater than 100,000 gpd are subject to approval by the BCC.

**Area Requirements:**

Maximum Lot Coverage – 50%

Floor Area Ratio (non-residential uses only) – 0.40

**2407. HIGH DENSITY RESIDENTIAL DISTRICT (HDR)**

This is the highest density residential district and is representative of a compact urban growth area. This category primarily allows for multifamily units.

Residential development is allowed at a density of 6.0 units per acre. Higher density developments, 6.1 to 20.0 units per acre, may be permitted if additional standards are met including a PUD as outlined in Chapter Four of this LDC.

Multi-family apartments built as additional stories over nonresidential structures may be allowed in accordance with the density allowances as described within this Section.

<sup>2</sup> Regional facilities not allowed within the Coastal High Hazard Area. See LDC Atlas for CHHA delineation.

\*Wellfields greater than 100,000 gpd are subject to approval by the BCC.

**Area Requirements:**

Maximum Lot Coverage – 55%

Floor Area Ratio (non-residential uses only) – 0.5

**2408. PLANNED RESIDENTIAL DEVELOPMENT DISTRICT (PDR)**

The primary land use within each of the developments is single family residential; however, other uses are allowed. Other permitted land uses include multifamily residential, public/semi-public, recreational, commercial, and limited industrial. PDRs illustrated on the GFLUM have been approved via the Planned Development process, and are tied to a master development plan which details land uses, acreage, and distribution of uses.

<sup>2</sup> Regional facilities not allowed within the Coastal High Hazard Area. See LDC Atlas for CHHA delineation

\*Wellfields greater than 100,000 gpd are subject to approval by the BCC.

**Area Requirements:**

Maximum Lot Coverage – per Master Plan of Development

Floor Area Ratio (non-residential uses only) – per Master Plan of Development

**2409. PROFESSIONAL SERVICES/OFFICE DISTRICT (PSO)**

This category represents a limited range of uses. This district contains those areas where professional office development is appropriate as the primary use. This category is representative of a buffer area between commercial and residential development.

Single family residential development may be allowed provided the structure has access to a local residential roadway and is in residentially committed areas, or is associated with a business owned and operated by the homeowner.

Multifamily residential development over four units per acre, not to exceed 10 units per acre, may be allowed subject to density limitations as outlined below. However, such residential development shall be required to preserve at least twenty percent (20%) of the gross site area as permanent open space as required by this LDC. Multi-family apartments built as additional stories over nonresidential structures may be allowed in accordance with the density allowances as described within this Section.

**Area Requirements:**

Maximum Lot Coverage – 70%

Floor Area Ratio (non-residential uses only) – 1.0

**2410. COASTAL AND LAKES COMMERCIAL DISTRICT (CLC)**

This category designates those areas suitable for commercial development within the coastal, lakes, and river regions. The commercial uses allowed in this category are water related, water dependent, or necessary for the support of the immediate population. The designation is intended for a single commercial use or business on a single parcel of property. Commercial centers are not allowed, but multiple activities operated by a sole entity are allowed. This requirement is not intended to limit the number of structures as long as the development meets all requirements of this LDC.

Single family residential development shall be allowed only if the structure has access to a local residential roadway and is in a residentially committed area, or is associated with a business owned and operated by the homeowner. In addition to commercial uses, the category allows for a single family residence as an accessory use to the primary commercial use of a lot or parcel. The intent is to allow a business owner or employee to live on-site with his/her family. Such single family dwelling units are allowed on the second floor of a building, or as an attached ground floor unit, or as a detached dwelling unit, preferably to the rear of the property.

Furthermore, CLC designated lands shall not be subdivided for the purpose of increasing residential density beyond the density allowed within the Low Intensity Coastal and Lakes District, that is, one dwelling unit per 20 acres outside of the V-zone and one unit per 40 acres within the V-zone. Existing lots of record smaller than the above standards shall be recognized as valid non-conforming lots.

Floor Area Ratio (non-residential uses only) – 0.3

**2411. NEIGHBORHOOD COMMERCIAL DISTRICT (NEC)**

The NEC District is intended to serve the needs of nearby residents, visitors, and businesses (within two to three miles). Uses in the NEC District are limited to neighborhood commercial uses and must be located on either a collector or arterial roadway. Single family residential development, up to 6 dwelling units per acre, shall be allowed only if the structure has access to a local residential roadway and is in a residentially committed area, or is associated with a business owned and operated by the homeowner.

**2412. GENERAL COMMERCIAL DISTRICT (GNC)**

This district is limited to commercial activity and activities of similar impact or consistent with commercial activity. No new GNC shall be allowed in the Coastal, Lakes, and River region.

Multifamily residential development over six units per acre, not to exceed ten units per acre, shall be allowed. However, such residential development shall be required to preserve at least twenty percent (20%) of the gross site area as permanent open space as required by this LDC. Single family residential development shall be allowed only if the structure has access to a local residential roadway and is in a residentially committed area, or is associated with a business owned and operated by the homeowner. Multi-family apartments built as additional stories over nonresidential structures may be allowed in accordance with the density allowances as described within this Section.

<sup>1</sup> Use not allowed within Coastal High Hazard Area. See LDC Atlas for CHHA delineation.

<sup>2</sup> Regional facilities not allowed within the Coastal High Hazard Area. See LDC Atlas for CHHA delineation.

\*Wellfields greater than 100,000 gpd are subject to approval by the BCC.

\*\*Manufacturing or processing uses not directly related to mining activity requires a minimum lot size of 50 acres of EXT.

Area Requirements:

Maximum Lot Coverage – 70%

Floor Area Ratio (non-residential uses only) – 1.0

**2416. PUBLIC/SEMI-PUBLIC, INSTITUTIONAL DISTRICT (PSI)**

This category allows for public/semi-public and institutional facilities, including such activities as educational, religious, medical and health care, governmental, and limited recreational uses. This category allows for single family residential development at a maximum of up to 4.0 dwelling units per acre, and shall be allowed only if the structure has access to a local residential roadway and is in a residentially committed area, or is associated with a business owned and operated by the homeowner.

**2419. AGRICULTURAL DISTRICT (AGR)**

This category designates those areas most suitable for agricultural uses. It provides for the continued use economically viable agricultural land. All agricultural uses are permitted as well as single family residences at a maximum density of one unit per 10 acres. Single family residential may be permitted at a density not to exceed one unit per five (5) acres when having not less than fifty percent (50%) open space if additional standards are met including a PUD as outlined in Chapter Four of this LDC. No land within a PSA boundary may be designated Agriculture.

Floor Area Ratio (non-residential uses only) – 1.0

**2421. MOBILE HOME PARK (MHP)**

This category is established to recognize existing manufactured housing and mobile home parks as well as to provide for the development of new ones. This category is intended to encourage compact, affordable, high quality housing developments with adequate amenities which are compatible with surrounding land uses.

The maximum permitted density is six dwelling units per acre. Up to nine units per acre may be allowed. Convenience retail and personal services to serve park residents may be allowed up to 5,000 square feet, located within the development and not accessible from any county arterial or collector road.

<sup>2</sup> Regional facilities not allowed within the Coastal High Hazard Area. See LDC Atlas for CHHA delineation.

**Area Requirements:**

Maximum Lot Coverage – 40%

Floor Area Ratio (non-residential uses only) – 0.2

**2422. RECREATIONAL VEHICLE PARK/CAMPGROUND DISTRICT (RVP)**

This category is intended to recognize existing Recreational Vehicle (RV) Parks and Campgrounds, as well as to provide for the location and development of new parks for recreational vehicles. Such parks are intended specifically to allow temporary living accommodation for recreation, camping, or travel use. Convenience retail and personal services to serve park residents may be allowed up to 5,000 square feet, located within the development and not accessible from any county arterial or collector road.

**Area Requirements:**

Maximum Lot Coverage – 40%,

Floor Area Ratio (non-residential uses only) – 0.2

**2423. PORT DISTRICT (PORT)**

The purpose of the Port District is to promote a waterfront community in Citrus County. This district recognizes those areas suitable for integrating residential, commercial, industrial, and supporting utility uses with water related and water dependent uses. Port Districts require a Subarea Plan Text and Map Amendment to the Comprehensive Plan. The specific uses are outlined in the Subarea Plan.

Prohibited uses include junkyards/salvage yards, commercial recycling centers, slaughterhouse, cemeteries, landfills, hazardous materials facilities, commercial incinerators, confinement feeding, and C&D facilities.

Multi-family apartments built as additional stories over nonresidential structures may be allowed in accordance with the density allowances as described within this Section.

<b><u>PORT District</u></b>		<b>Key – Level of Review</b>

<b><u>PORT District</u></b>	<b>Key – Level of Review</b> <b>P = Permitted</b> <b>C = <u>Conditional Use</u></b> <b>MPD = Subject to approved Master Plan of Development</b>
<b>Uses</b>	

<sup>1</sup> Workforce housing is allowed as a temporary use in the industrial area of the PORT District. The provisions for temporary use workforce housing shall be defined by the Subarea Plan.

<sup>2</sup> Cruise Ship Facilities are allowed subject to the requirements of Florida Statutes.

<sup>3</sup> Uses limited within the Coastal High Hazard Area with a Planned Unit Development. See LDC Atlas for CHHA delineation.

<sup>4</sup> Uses limited within the Coastal High Hazard Area to sites with direct access to a principal arterial roadway.

\*Wellfields greater than 100,000 gpd are subject to approval by the BCC.

### **Specific Criteria Port District**

- A. Residential uses shall be clustered and may have a density not to exceed 6 units per acre.
- B. Residential development shall be entitled to an additional density of one unit per acre above the residential density standard of the Port District, provided such density is clustered and legally dedicated to workforce housing.
- C. Residential development within the Industrial areas of the Port District will require a Planned Unit Development.
- D. Community design elements shall be promoted within the waterfront area. These include:
  - 1. A complementary vertically and horizontally mixed range of land uses including educational, recreational, commercial, residential and cultural uses;
  - 2. Interconnected networks of street designed to encourage golf carts, walking, and bicycling, with traffic calming techniques utilized where appropriate;
  - 3. Appropriate densities and intensities of uses within walking distance of transit stops;
  - 4. Daily activities within walking distance of residences, allowing independence of persons who do not drive;
  - 5. Public uses, streets, and squares that are safe, comfortable, and attractive for the pedestrian, with adjoining buildings open to the street;
  - 6. Parking not interfering with pedestrian, transit, automobile, and truck travel modes.
  - 7. Linear pedestrian and bicycle cross access between uses; and
  - 8. Development along the waterfront will allow for appropriate public access.
- E. All development within the Port district must comply with the Subarea Plan Standards and provide mitigation to maximize compatibility between uses. Mitigation shall include:
  - 1. Appropriate buffers and proper plantings and may include fences, walls and berms;
  - 2. Stormwater Management systems appropriate for Karst Sensitive Areas as outlined in the Plan;
  - 3. Impacts of waterfront development on Manatees as outlined in the Plan; and
  - 4. Use of best management practices outlined in the Clean Marina Program for Marina development within the PORT district.
- F. Any residential component of a Port District shall comply with the standards of, “Animals” and “Trucks” in Selected Land Use Districts”, of this LDC.

- G. RV Parks in the Port District (if authorized) shall comply with the standards of the Recreational Vehicle Parks section of this LDC.
- H. Communication/Transmission Towers are limited to the PORT Industrial and PORT Commercial areas as outlined in the specific Subarea Plan and shall comply with all standards in the Communication/Transmission Towers section of this LDC.

Area Requirements:

Maximum Lot Coverage – 50% (or as outlined in the Sub-Area Plan)

Floor Area Ratio (non-residential uses only) – 0.3 (or as outlined in the Sub-Area Plan)

## **2500. TYPES OF USES**

This section contains a list of allowable uses within each land use district described in the Comprehensive Plan and this LDC. Specific uses are either a) permitted subject to the minimum requirements for development within the district, b) allowable subject to PUD standards for developments of greater intensity than the designated predominant use or conditional uses, or c) prohibited as incompatible with the intent and character of the district.

- A. Residential. This is a broad group of uses, including single family dwellings, accessory apartments, multifamily dwellings, and accessory structures and uses, modular and manufactured housing, but specifically excluding recreational vehicles. While an area may be designated for residential use, it does not follow that any housing type (single family, apartment, townhouse, etc.) is allowed. Certain areas are limited to one or more housing types in order to preserve the established character of the area. In addition, each district that allows residential use has a maximum density under minimum development standards. Some districts allow additional density when a proposed project meets PUD standards.

**NOTE:** It is understood that, for marketing purposes, a residential development may use such terms as single family attached dwelling to describe a single-family-type character and design of a project. However, for the purposes of determining allowable use and appropriate development standards, any attached dwelling shall be considered multifamily.

The utilization of Residential Design and Standard Design Manufactured Housing units shall be permitted within all residential land use districts that have allowed manufactured housing units as permitted uses under the previous Zoning Ordinance (No. 86-12).

- B. Institutional Uses. This type of use includes educational facilities (public or private), preschool and day care facilities (public or private), houses of worship, cemeteries without funeral homes, residential care facilities, halfway housing, nursing home facilities, and all other similar institutional uses.

C. Recreational Uses. These uses include areas for outdoor recreational activities such as picnicking, jogging, cycling, arboretums, hiking, golf courses, play grounds, ball fields, outdoor ball courts, stables, outdoor swimming pools, and water related or water dependent uses such as boat ramps, fishing docks and piers, and all similar outdoor recreational uses, whether public or private.

Other recreational uses such as firing ranges, marinas, miniature golf courses, race tracks, and similar recreational or quasi-recreational activities may be allowable subject to PUD standards for developments of greater intensity than the designated predominant use or conditional use.

D. Professional Service and Office Uses. This group of uses includes business and professional offices, medical offices or clinics, government offices, financial institutions without drive-up facilities, and personal service businesses where the service is performed on an individual-to-individual basis as opposed to services that are performed on objects or personal property. Examples of personal service businesses are barbershops, beauty shops, or photography studios. This group of uses may include a dispatching/communications/office center for the distribution of goods, but specifically excludes warehousing or actual distribution of goods.

E. Neighborhood Commercial Uses. A wide variety of neighborhood commercial, service businesses, and related activities are included in this group of uses. Examples include the professional and office uses listed above as well as the following specific uses and all substantially similar types of uses.

1. Grocery or discount retail stores having less than 7,000 square feet gross floor area. A grocery or discount retail store can exceed the gross floor area standard by securing a Conditional Use approval.
2. Pharmacy or drugstores having less than 7,000 square feet gross floor area. A pharmacy or drugstore can exceed the gross floor area standard by securing a Conditional Use approval.
3. Spas/health clubs, etc.
4. Community centers, fraternal lodges, etc.
5. Dance studios, martial arts, etc.

6. Small retail shops, such as shoe stores, clothing stores, florists, book stores, etc. In the Floral City PSA, these uses are limited to less than 3,000 square feet per individual use. Where developed as part of a multiple-use facility/strip center the total square feet of gross floor area shall not exceed 12,800 square feet.
  7. Funeral homes and mortuaries.
  8. Specialty food stores such as meat markets, bakeries, etc.
  9. Service businesses such as blueprint, printing (excluding publishing), catering, tailoring, travel agencies, upholstery shops, laundries/dry cleaners, and light mechanical repair stores such as camera, TV, or bicycle repair shops.
  10. Restaurants (standard sit-down and high-turnover sit-down, including open air cafés, but excluding all restaurants with drive-up facilities).
  11. Art gallery, museum, library.
  12. Fish and bait shops, etc.
  13. Veterinary offices and animal hospitals, provided the facility has no outside kennels.
  14. Convenience stores.
- F. General Commercial. The uses in this group include those activities that require outdoor storage, have higher trip generations than neighborhood commercial listed above, or have potential for greater nuisance effect on adjacent properties due to noise, light and glare, or typical hours of operation. This group of uses includes the following list of specific uses and all substantially similar activities based upon similarity of characteristics:
1. Sales, rental, service, and repair of: new or used automobiles, boats, buses, farm equipment, motorcycles, trucks, recreational vehicles, and mobile homes including truck stops, body shops, road services, and car wash facilities.
  2. Gasoline sales and services, combination gasoline sale and food marts, and similar facilities.
  3. Taverns, bars, lounges, night clubs, and dance halls.
  4. Financial institutions with drive-up facilities.

5. Restaurants with drive-up facilities.
  6. Roadside produce stands, temporary or permanent.
  7. Outdoor arenas, rodeo grounds, livestock auction facilities, race tracks (auto, dog, go-kart, horse, motorcycle, shooting and firing ranges, etc.)
  8. Veterinary offices and animal hospitals with outside kennels.
  9. Storage yards for equipment, machinery, and supplies for building and trades contractors, garbage haulers, etc.
  10. Flea markets or similar outdoor or indoor/outdoor sales complexes.
  11. Hotel, motels.
  12. Hospitals.
  13. Theaters and auditoriums.
  14. Marinas.
  15. Miniature golf courses, golf driving ranges.
  16. Plant nurseries.
  17. Commercial or trade schools.
  18. Department stores and other retail sales stores greater than 3,000 square feet gross area.
  19. Shopping center.
  20. Grocery stores, supermarkets.
  21. Mini-warehouses.
  22. Distribution centers.
- G. Public Service/Utility Uses. This group of activities includes those uses that provide essential or important public services, and that may have the characteristics of outdoor storage, or create a potential nuisance to adjacent properties due to noise, light and glare, or appearance. Government offices or government agency offices are specifically not included in this group of uses. Uses include the following substantially similar activities based upon similarity of characteristics:

1. Emergency service activities such as buildings, garages, parking, and/or dispatch centers for ambulances, fire, police, rescue, etc.
2. Broadcasting stations and transmission towers.
3. Utility facilities such as water plants, wastewater treatment plants, electricity substations serving 230 KV or greater.
4. Maintenance facilities and storage yards for schools, government agencies, telephone and cable companies, etc.
5. LP gas storage and/or distribution facilities for up to 1,000 gallons.

**NOTE:** This should not be construed to prevent retail sales of LP gas in canisters or similar prefilled containers.

6. Airports, airfields, truck or bus terminals, etc.
- H. Agricultural Uses. Agricultural uses include croplands, pastures, forestry, aquaculture, silviculture, viticulture, feed lots, and buildings that are an accessory to these agricultural uses. This category of uses does not include processing or distribution plants for agricultural products and supplies unless the processing is for products on the agricultural site having a minimum lot size of ten acres. Residential use of the land is included at a density of one unit per 10 acres.
- I. Industrial Uses. This type of use includes those wholesale and retail businesses for manufacturing, processing, storing, or distributing goods. Included in this category are uses which require primarily outdoor storage or when the industrial activity itself is conducted outdoors. Such uses include, for example, LP gas storage and/or distribution exceeding 1,000 gallons, junkyard or salvage yards, recycling centers, landfills, and hazardous waste collection and handling centers.
- J. Mining Uses. The types of uses in this group include surface mining, rock quarries, strip mining, and any extractive activities as may be permitted pursuant to the mining standards found in this LDC. Buildings and businesses for refinement, processing, packaging, and transportation of extracted materials are included in this group of uses.
